ABOUT US

Established in 1971, Hamilton Gas Products is a family-owned and run business based in Bangor, Northern Ireland. With over 50 years of experience, we stock a wide range of LPG and Natural Gas appliances and trade gas products for everyday use, such as BBQs and heaters, as well as sophisticated equipment for gas installers and plumbing professionals.

We are proud to be one of the UK and Ireland's leading suppliers and retailers in the gas industry. Over the years, we have built trusted partnerships with NCASS and Liquid Gas UK and have established important relationships with renowned clients, such as Calor Gas, Flo-Gas, Bss Group, Northern Ireland Electricity, and Manx Electricity Authority, to name a few.

Our values are to offer:

- Unrivalled service
- Extensive technical knowledge, and
- Friendly customer support

PARTNER

We sell via our catalogue, website (gasproducts.co.uk), Amazon, eBay and our trade counter and offer fast and free delivery on all orders over £75/€90.

CALIBRATION

We are an authorised flue gas analyser calibration service centre for Anton and Testo products. Equipped with the latest instrumentation, our fully trained engineers offer a fast, efficient and professional service.

We are the only company on the island of Ireland certified and registered to calibrate Anton and Testo Flue Gas Analysers on site at our base in Bangor, Co. Down saving you the time and effort of sending them across to the UK mainland.

We can calibrate the below models on site.

ANTON	TESTO
Evo range (Evo1, Evo2, Evo3)	310
Pro range (Pro1, Pro2, Pro3)	327-1
	320

KANE

All Kane analysers must be returned to Kane International Ltd at their headquarters in the UK mainland, as per the terms and conditions set out in the manufacturer's warranty.

We can act as an agent between our valued customers and Kane International Ltd by arranging the delivery of your Flue Gas Analyser to them and ensuring it is safely returned to you in the shortest time possible.

MONDAY - FRIDAY 09:00 - 17:00

THIS IS NOT SMART. IT'S BRILLIANT.

CompacTi adds a new dimension to LPG cylinders by offering effective remote status that optimises the notification when to change the cylinders.

Great for operational and cost-saving solutions for park site operators or private residential owners. The cleverly built-in algorithms enable the use of all available gas in the cylinders.

No more leftover usable gas going to waste.

Standard Bluetooth version data is collected via the app with manual walk/drive-by collection or private owners on home devices. Remote network devices also available for peace of mind when away from home.

NO INTERRUPTION

Automatic Changeover

Clesse UK has developed Telemetry-Ready CompacTR800 changeover which includes the easy to use CSR "OPSO".

CompacTi Telemetry informs park managers and individuals about their gas cylinder status and replacement requirements.

All you need is to fit the optional electronic backplate and then "smart turns to brilliant".

NO HASSLE

You can even order gas from your home at the touch of a button from the screen of your mobile device.

GAS SOLENOID VALVES

Normally Closed without Manual Reset

Closed by power interruption in less than one second. Can be electrically connected to an alarm system and/or knock off switch. The valve may be mounted horizontally or vertically, but not upside down. Max inlet pressure 200mbar Voltage 240 V AC.

- Provided with G1/4" pressure gauge on two sides in the inlet pressure chamber
- Fine mesh filter incorporated prevents dirty contamination of the seal seat
- Maximum operating pressure 200 mbar
- Suitable for air and non-aggressive gases (EN 437, 1, 2 and 3 families)
- Easy adjustable flow rate
- Certified for continuous service (100% ED) and endless ON/OFF cycles.
- Insulation is class H (180°C)
- Terminal box with PG connector or ISO 4400 plug on 1/2"

GASTITE STAINLESS STEEL GAS TUBING & FITTINGS

Gastite Tubing

With corrugated stainless steel tubing you can navigate around obstacles, saving time and money. And the patented XR2 fitting delivers an all-metal seal, no soldering, no leaks. The Jacket-Lock® feature of this fitting surrounds the polyethylene protecting the tubing from environmental contaminants.

The Gastite corrugated stainless steel tubing (CSST) system can be used for installations of Natural Gas and LPG. The system is approved under the BS Kitemark number KM587681. Simple hand tools such as tube cutters, wrenches and utility knives are all that are needed to work with Gastite components. Gastite is a reliable, cost-effective system that can be installed on all modes of construction.

Gastite Contractors Kit

Gastite® contractor kit consists of a length of corrugated stainless steel tube (CSST) with a UV resistant polyethylene cover and two XR2 straight BSP TM brass fittings with Jacket-Lock®. 0.5 bar max. operating pressure in both domestic, commercial and industrial applications.

For use with Natural Gas and LPG. Approved in accordance with BS EN 15266:2007.

GAS METERS

The size of the meter needed is established by the volume of gas flowing and not the size of pipe work. The maximum flow can be calculated from the number and type of appliances on the gas stream of the meter. A Btu or kilowatt rating can be converted into a flow rate.

CONVERSION FACTORS
1 kilowatt = 3412 Btu/hour
1 cubic meter = 35.31 cubic feet
100,000 Btu = 96.6 cubic feet (at a calorific value of 1035 Btu/ft)
1 cubic foot/hour = approximately 1025 Btu/hour

Code	Size	Max Capacity per hour m ³	Max working pressure, mbar	A	B	C	D	E	Thread size

CARAVAN METER BOXES

Caravan LPG Gas Meter Box Assembly

Maximum flow	6 m ³ /hour
Maximum pressure	4 bar
Dimensions (W x H x D)	33 cm x 43 cm x 19 cm
Inlet Connection	3/4" Bsp Fm
Outlet Connection	1/2" Bsp Fm
Operating Pressure	37 mbar

This compact caravan style meter box assembly has been introduced to ensure that the secondary metering of LPG caravan sites and metered estates becomes a stylish and simple operation.

The "off the shelf" complete kit package allows easy installation and servicing.

COOKER HOSE ASSEMBLIES

- Manufactured to EN14800 and has CE certification
- The bending radius can be mounted without cross section exceeding
- Very economical due to its long lifetime
- High corrosion resistance due to TPE jacket
- High temperature resistance (EN 1775 to 650 degrees celsius)
- High mechanical strength
- Provides maximum safety due to extra features compared to other gas hoses
- Easy traceability with lot number application
- Patented design

Micropoint Universal Gas Cooker Hoses

Certification	BSI 669-2 / BSI Kitemark Certified			

- Heat, flame and grease proof
- External 304 Stainless Steel braided for extra strength
- Internal 304 Stainless Steel corrugated flexible tube
- Gives high tensile strength, durability and safety
- Unique brass quick release valve
- Sheath secured and protected at both ends by factory clamped collars
- Includes heavy duty restraining kit with 8mm carabiner capable of 800kg strain
- Most competitive hose on the market at this quality level
- Suitable for use with 1st, 2nd & 3rd family gas hoses only on piping system at a pressure NOT exceeding 50 mbar

COMMERCIAL & INDUSTRIAL REGULATORS

J78R

Compact and accurate, designed for commercial and industrial applications, including such OEM equipment as boiler and burner trains. All units are designed for Natural Gas, LPG & manufactured gases and can be installed in horizontal or vertical pipelines. May be utilised for domestic meter service applications with inlet pressures up to 75mbar complying with British Gas specifications.

J78RS

As the J78R but fitted with a 1/4" BSP threaded breather port that can be used to ventilate to atmosphere where this additional safety feature is required.

J48

The J48 is a service and appliance regulator suitable for domestic, commercial and industrial applications. All units are designed for Natural Gas, LPG & manufactured gases. Can be installed in both horizontal and vertical pipelines. The J48 has positive lock-up and has been designed for high efficiency and sensitivity with maximum flow and minimum pressure loss.

BUBBLE TESTERS

Designed to be connected close to the outlet side of the gas regulator. It then provides an instant visible check for leaks. Bubbles in the sightings chamber indicate a leak downstream of the bubble tester.

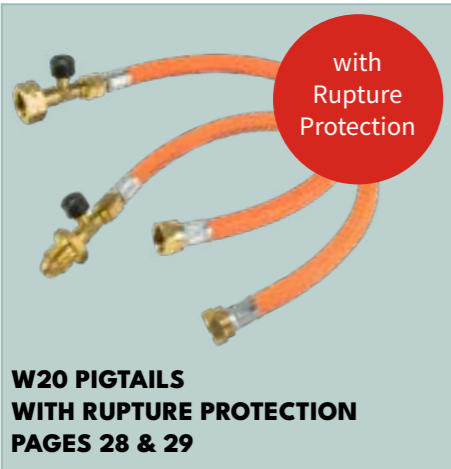

Supplied complete with fluid.

For use in boats, caravans and other applications. Approved under the Boat Safety Scheme.

Suitable for Natural Gas and LPG.

Dimensions (H x W x D)	90 x 60 x 30mm
Capacity	12kW
Max working pressure	2 bar (29.4 p.s.i.)

AUTO CUT-OFF VALVE

For use with either Propane or Butane. Quick acting, quarter turn shut-off. Must be placed in the gas line between the regulator and the appliance.

Detects both loss of pressure & excess flow. Cuts off gas supply to the appliance automatically and can only be reset manually.

A cut-off of this type is mandatory on all British fishing vessels over 10 metres in length using LPG.

Code	Type

CLESSE GAS AUTOMATIC CUT OFF VALVE - HA9608

"This product is a must have device when using LPG especially on boats and it works perfect"

John Edgar

RV SOLENOID VALVES

1/4" BSP for LPG or Natural Gas. Normally closed valve which is held open by electric current.

Power interruption closes the valve; power supply opens the valve. It can be electrically connected to an alarm system and/or a knock-off switch. May be mounted in any orientation.

Max. ambient temperature	60 °C
Pressure range	200 mbar max
Nominal bore	4mm

GAS WATER HEATERS

Pegaso Eco 6/11 Litres Per Minute

	GCC1HLAA	GCC1MLAA
ErP Class	A+	A
Gas Type	LPG	
Dimensions	548 x 283 x 185 mm	560 x 330 x 180 mm
Water Connections	1/2" BSP	
Sound Power Level	57 dB	58 dB
NOx Emission	52 mg/kWh	37 mg/kWh
Nominal Heat Flow Rate	11.8 kW	21.1 kW
Output Power Min/Max	5.4 / 10.4 kW	7.2 / 18.9 kW
Operating Pressure Min/Max	10/0.2 bar	
Empty Weight	8.5 kg	9.5 kg
Max Water Flow Rate	6 L/min	10.8 L/min
Temperature Range Min/Max	40/60°C	
Power Supply	Battery	

LOW NOx wall-mounted gas water heater with open chamber and natural draft, with modulating heat power. Compact in size and weight, it offers a wide range of hot water temperatures and power efficiencies.

Please Note: The water heater flue outlet is 100mm for Pegaso Eco 6 and 110mm for Pegaso Eco 11.

The Pegaso Eco 6 replaces the CPA 6, Cointra COB 5, Morco D51B, Morco D61B & D61E, Bosch W135, Primo 6, Forcall 6L.

The Pegaso Eco 11 replaces the CPA 11, the Cointra COB 10, Morco G11E, Bosch W275, Primo, Forcall.

* May not be suitable for boats, touring vans and motorhomes.

PROVING GAS SYSTEMS

Caledonian Controls GLT10

Code
GLT10

Gas Proving Systems are required under BS6173 for any gas appliance that is installed and not fitted with a Flame Failure Device (FFD). This usually only applies to small gas rings and hobs; however, it can apply to some older grills and ovens without FFD.

In any event, a well-designed gas proving system will test for external leaks, not just the odd unprotected gas tap that may have been left turned on. Furthermore, should an unprotected small appliance be fitted in the future, this will be a simple task if the GLT10 gas proving system is already installed.

The GLT10 is a modern state-of-the-art Gas Proving System. It has been designed and developed to meet all current standards and exceed them. The GLT10 operates in several modes including the 'weep' system required in EN6173 and described in the Institute of Gas Engineers Document IM20. A full range of certified accessories is available with the GLT10, such as gas pressure switches, charging valves and venting valves.

- Conforms to BS6173:2001 and DW172
- 24-month manufacturer's warranty.
- CE marked & tested to comply with the low voltage directive & EMC emissions
- Stand alone and systems integration models.
- Protected to IP65 allowing normal catering hygiene operations

GAS INTERLOCK EXTRACTING SYSTEMS

Gas Minder 4 Interlock Kit

Code	GM111
Dimensions	140 x 140 x 60 mm
IP Rating	IP55

Caledonian Controls ECS10/E Current Sensor

Code	ECS10
Dimensions	55 x 80 x 120 mm
IP Rating	IP65

The EMX10 & EMX20 from Caledonian Controls deliver a new standard in kitchen interlock controls conforming to BS6173 and the HVCA's DW172.

It offers the ultimate in safety, convenience and reliability.

Caledonian understands the need for total reliability combined with safety when designing and producing these safety critical components.

- Low cost and entry level control
- Conforms to BS6173:2001 and DW172
- 24 month manufacturer's warranty
- Certified by NAMAS laboratory to comply with BS6173:2001
- CE marked & tested to comply with the low voltage directive & EMC emissions
- Can be used with existing starter & fan as a 'retro-fit'
- Protected to IP65 allowing normal catering hygiene operations

"This is the second time I've ordered from Hamilton and the service on both occasions has been excellent. Good quality products at competitive prices and very prompt delivery. The website is very informative which makes ordering the correct part much easier."

Keith Edwards

"Extremely helpful staff I spoke to on the phone, knowledgeable about their products and swift delivery to me."

Geoffrey Baker

"Have used Hamilton Gas Products a couple of times now. The website is so easy to use has very clear product information and ordering and payment was quick and easy. Items arrived very quickly. First class service. Would highly recommend and definitely use again."

Stainless Steel Gas Final Appliance Hose

RINNAI LPG GAS RICE COOKER - RICELPG

"Never disappointed in the quality of the products and service given by Hamilton Gas Products"

Tristan Lee Son

"Quality product!

Easy to assemble, very big but cooks rice perfectly and very quickly. I've been very impressed with it this far."

CATERING URNS

Burco 20L LPG Manual-Fill Gas Water Boiler

The perfect solution for outdoor catering events, from food trailers, to stalls at fetes and Christmas markets. Simply connect the appliance to a Propane gas cylinder for a supply of boiling hot water whenever and wherever you need it.

- 20 litre capacity - ideal for most commercial environments
- Simple to switch between controllable and constant flow
- Energy efficient burner Maximises heating and minimises gas consumption.
- Variable thermostat.
- Safety flame supervision device for enhanced safety and peace of mind

Dimensions	H: 410 mm incl. lid handle W: 430 mm incl. tap D: 360 mm excl. tap
Weight	5.3 kg
Material/Colour	304 Grade Stainless Steel
Heat Up time	53 minutes
Tap Height to counter	120 mm
Variable Thermostat	Yes
Gas Type/Pressure	LPG-Propane, 37 mbar
Gas Connection	8 mm
BTU/hour	10,754
Ignition	Piezo
Securable feet	Yes
Burner max heat input	3.15 kW
Cups of Tea	120 (depending on cup size)

RICE COOKERS

Rinnai LPG/Natural Gas Rice Cooker

Safe and easy to use, employing automatic shut-off when cooking is complete so the chef can walk away from the unit knowing the rice will be cooked to perfection without any sticking or burning.

Straightforward controls mean the cooker can be set, loaded and ignited with ease. A safety valve ensures correct lighting for the pilot and main burner.

A Piezo system is installed for quick and easy ignition, without the need for electricity or matches. For added safety, a flame-check allows the user full view of the flame through view-holes on the side of the heat shroud.

The innovative burner is designed to distribute heat evenly and safely to prevent overcooking. The gas pressure is kept constant with a fully automatic regulator available for both natural gas (at 10.3kW) and LP gas (at 10.0kW).

- CE approved
- Safety valve
- Flame check
- Easy to use controls
- Cooks by itself ~ once you load it, turn it on and walk away
- Automatic shut-off ~ when cooking is complete

Dimensions	45.7 x 59.5 x 48.4 cm
Input Rating	10 kW
Gas Type	LPG / Natural Gas

MAD SPINNER BLACK CHIMNEY COWL - MAD4

"Bought this cowl as it was recommended by our chimney sweep. We were experiencing terrible blow downs in our new home, the smoke was blowing down our chimney and into our living room and bedrooms. Since getting this fitted by our wonderful chimney sweep not one blow down, and no smokey smell. Highly recommend this product."

VENTILATORS - BLACK HOLE

Stops wind blasting in - The air flow within the duct is slowed down by the change of direction and by the vortices formed, reducing draughts to a minimum. Stops light showing through - The occupier cannot see through the ventilator and is less likely to be worried that insects and vermin may enter the house through it. Includes cavity liner, anti-draught baffles, extension piece, air blast cowl and white inner grille.

GAS COMBI BOILERS

Rinnai

The Rinnai range of ZEN combi boilers are designed to give an abundance of hot water flow rates to ensure that your hot water never runs out. Another reason these combination boilers differ from competitors is that all you need is contained within the box. Therefore there is no need for additional controls or add-ons. We include the WIFI IOT Enabled Controls as standard. The Rinnai Zen combination boilers are pre-set for LPG and NG and are packed full of smart features and benefits; This system will increase comfort and reduce energy usage whilst providing a highly economical solution for today's changing marketplace.

Features of the ZEN boiler range include;

- IOT controller as standard
- Fast heating mode
- Domestic hot water pre-heat function - saving wasted water
- The energy monitor function allows users to have full transparency of energy usage
- Flue runs up to 30 meters
- Rinnai boiler App for android and IOS

Rinnai Me Controller – Comfort control - Smart Wifi controller and App benefits; The Rinnai app seamlessly connects to the controller in the property; the user can control the boiler remotely, adjusting temperature, setting weekly and daily programmes, receiving alarm functions, monitoring energy usage and setting limits.

The Wifi and boiler controller also uses GPS from the user's mobile to bring on the heat when you are getting close to home to ensure the house is warm when you arrive.

W1300I(N)-LPG	Rinnai 1300i Internal LPG Water Heater
W1300I(N)-NAT	Rinnai 1300i Internal Natural Gas Water Heater
W1300E(N)-LPG	Rinnai 1300i External LPG Water Heater
W1300E(N)-NAT	Rinnai 1300i External Natural Gas Water Heater

Rinnai 1600i/e

Installation	i: Internal, wall-mounted e: External, wall-mounted
Dimensions	670 x 470 x 276 mm
Weight	29 kg
Fuel	Natural Gas / LPG
Temperature Range	40, 42, 50, 55, 60, 65, 75, 85°C
Maximum Input	57.9 kW
Exhaust Type	External - Forced Exhaust
Ignition	Electronic
Burner	Pre Mix Zero Governor
Low NOx	Less Than 28 MG/kWh
Water Flow Rate	1.5 * to 37 L/min
Minimum Operating Pressure	1.5 bar
Noise Level	59 db(A)
Connections (Gas - Water Inlet - Water Outlet)	3/4 BSP
Connections (Condense Outlet)	1/2 BSP
Electrical Supply	230 AC 50Hz 1ph
Gas Usage	4.2kg/h
Efficiency	96%
HEX	Stainless Steel

* Minimum operation pressure and flow based on temperature setpoint and inlet conditions.

RINNAI 11i, 17i AND HD55i 500MM FLUE EXTENSION - REU115

"I recently purchased a flue extension from Hamilton Gas Products. This is the 2nd time I have purchased from Hamilton's. Their service is excellent and very professional. No hassle whatsoever. I will be delighted to purchase from them again."

ANTON FLUE GAS ANALYSERS

- Unrivalled double protection against condensate ingress damage - Water stop technology protects against down time
- New condensate trap design is more robust and easier to empty, complete with washable foam dust filter saving you money
- BSI tested to EN50379:2012 1 & 3. Use for: BS7967 & BS8494
- Robust construction, ergonomic design for today's professional engineer
- Intuitive, easy to navigate menu driven software - navigated using the new large keypad
- High contrast colour display with bright on screen prompts and warnings
- Easy USB-C charging for analyser and printer at home, on site or in your vehicle
- New Drop-in Bag design allows quick removal and replacement of FGA and accessories, business card holder and shoulder strap
- New secure click in flue probe connector to FGA with additional filtration
- Built in sensor over range protection for all Sprint Pro models

Anton Sprint Pro 1
Code
SPRINT PRO1

- Kit includes:
- Sprint Pro Quick Drop-in Bag
 - USB Charger & Lead
 - Sprint Pro Flue Probe with Water Stop Technology
 - Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 1 Kit
Code
SPRINT PRO1 KIT

- Kit includes:
- Sprint Pro Quick Drop-in Bag
 - USB Charger & Lead
 - Sprint Pro Flue Probe with Water Stop Technology
 - Pro Infrared Magnetic Printer (USB Charging)
 - Spare Washable Particulate Filter
 - 1 x AS/10 Clamp Pipe Temperature Probe
 - Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 1 Oil Kit
Code
PRO1 OILKIT

- Kit includes:
- Sprint Pro 1 Flue Gas Analyser
 - 2 x Pipe Clamp Temperature Probe
 - Sprint Pro Oil Boiler Kit With 3 Micron Filter
 - ASPK Smoke Pump Kit
 - AOCC Oil Pressure Kit
 - Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 2
Code
PRO2

- Kit includes:
- Sprint Pro Quick Drop-in Bag
 - USB Charger & Lead
 - Sprint Pro Flue Probe with Water Stop Technology
 - Pro Infrared Magnetic Printer (USB Charging)
 - Spare Washable Particulate Filter
 - 1 x AS/10 Clamp Pipe Temperature Probe

Anton Sprint Pro 2 Kit A
Code
PRO2KITA

- Kit includes:
- Sprint Pro Quick Drop-in Bag
 - USB Charger & Lead
 - Sprint Pro Flue Probe with Water Stop Technology
 - Pro Infrared Magnetic Printer (USB Charging)
 - Spare Washable Particulate Filter
 - 1 x AS/10 Clamp Pipe Temperature Probe
 - Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 2 Kit B
Code
PRO2KITB

- Kit includes:
- Sprint Pro Quick Drop-in Bag
 - USB Charger & Lead
 - Sprint Pro Flue Probe with Water Stop Technology
 - Pro Infrared Magnetic Printer (USB Charging)
 - Spare Washable Particulate Filter
 - 1 x AS/10 Clamp Pipe Temperature Probe
 - Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 2 Oil Kit
Code
PRO2 OILKIT

- Kit includes:
- Sprint Pro 2 Flue Gas Analyser
 - 2 x Pipe Clamp Temperature Probe
 - Sprint Pro Oil Boiler Kit With 3 Micron Filter
 - ASPK Smoke Pump Kit
 - AOCC Oil Pressure Kit
 - Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 2 Safety Kit
Code
PRO2 SAFETYKIT

- Kit includes:
- Sprint Pro 2 Flue Gas Analyser
 - 2 x Pipe Clamp Temperature Probe
 - Pressure Relief Valve
 - Clip SGD Carbon Monoxide 30/100 PPM
 - Certificate of Calibration & CD-ROM/Quick Start Guide

ANTON FLUE GAS ANALYSERS

Anton Sprint Pro 3

Code
PRO3

Kit includes:

- Sprint Pro Quick Drop-in Bag
- USB Charger & Lead
- Sprint Pro Flue Probe with Water Stop Technology
- Pro Infrared Magnetic Printer (USB Charging)
- Spare Washable Particulate Filter
- 1 x AS/10 Clamp Pipe Temperature Probe
- Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 3 Kit A

Code
PRO3KITA

Kit includes:

- Sprint Pro Quick Drop-in Bag
- USB Charger & Lead
- Sprint Pro Flue Probe with Water Stop Technology
- Pro Infrared Magnetic Printer (USB Charging)
- Spare Washable Particulate Filter
- 1 x AS/10 Clamp Pipe Temperature Probe
- Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 3 Kit B

Code
PRO3KITB

Kit includes:

- Sprint Pro Quick Drop-in Bag
- USB Charger & Lead
- Sprint Pro Flue Probe with Water Stop Technology
- Pro Infrared Magnetic Printer (USB Charging)
- Spare Washable Particulate Filter
- 1 x AS/10 Clamp Pipe Temperature Probe
- Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 4 Safety Kit

Code
PRO4 SAFETYKIT

Kit includes:

- Sprint Pro 4 Flue Gas Analyser
- 2 x Pipe Clamp Temperature Probe
- Pressure Relief Valve
- Clip SGD Carbon Monoxide 30/100 PPM
- Certificate of Calibration & CD-ROM/Quick Start Guide

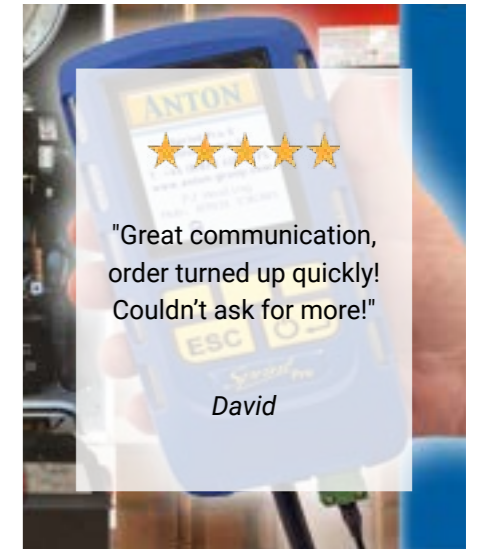

Anton Sprint Pro 4 Combo Kit

Code
PRO4 COMBOKIT

Kit includes:

- Sprint Pro 4 Flue Gas Analyser
- 2 x Pipe Clamp Temperature Probe
- **Sprinter IR Printer**
- Clip SGD Carbon Monoxide 30/100 PPM
- Sprint Pro Extendable Probe Handle
- Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 3 Safety Kit

Code
PRO3 SAFETYKIT

Kit includes:

- Sprint Pro 3 Flue Gas Analyser
- 2 x Pipe Clamp Temperature Probe
- Pressure Relief Valve
- Clip SGD Carbon Monoxide 30/100 PPM
- Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 3 Combo Kit

Code
PRO3 COMBOKIT

Kit includes:

- Sprint Pro 3 Flue Gas Analyser
- 2 x Pipe Clamp Temperature Probe
- **Sprinter IR Printer**
- Clip SGD Carbon Monoxide 30/100 PPM
- Sprint Pro Extendable Probe Handle
- Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 5

Code
PRO5

Kit includes:

- Sprint Pro Quick Drop-in Bag
- USB Charger & Lead
- Sprint Pro Flue Probe with Water Stop Technology
- Pro Infrared Magnetic Printer (USB Charging)
- Spare Washable Particulate Filter
- 1 x AS/10 Clamp Pipe Temperature Probe
- Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 5 Kit A

Code
PRO5KITA

Kit includes:

- Sprint Pro Quick Drop-in Bag
- USB Charger & Lead
- Sprint Pro Flue Probe with Water Stop Technology
- Pro Infrared Magnetic Printer (USB Charging)
- Spare Washable Particulate Filter
- 1 x AS/10 Clamp Pipe Temperature Probe
- Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 5 Kit B

Code
PRO5KITB

Kit includes:

- Sprint Pro Quick Drop-in Bag
- USB Charger & Lead
- Sprint Pro Flue Probe with Water Stop Technology
- Pro Infrared Magnetic Printer (USB Charging)
- Spare Washable Particulate Filter
- 1 x AS/10 Clamp Pipe Temperature Probe
- Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 4

Code
PRO4

Kit includes:

- Sprint Pro Quick Drop-in Bag
- USB Charger & Lead
- Sprint Pro Flue Probe with Water Stop Technology
- Pro Infrared Magnetic Printer (USB Charging)
- Spare Washable Particulate Filter
- 1 x AS/10 Clamp Pipe Temperature Probe
- Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 4 Kit A

Code
PRO4KITA

Kit includes:

- Sprint Pro Quick Drop-in Bag
- USB Charger & Lead
- Sprint Pro Flue Probe with Water Stop Technology
- Pro Infrared Magnetic Printer (USB Charging)
- Spare Washable Particulate Filter
- 1 x AS/10 Clamp Pipe Temperature Probe
- Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 4 Kit B

Code
PRO4KITB

Kit includes:

- Sprint Pro Quick Drop-in Bag
- USB Charger & Lead
- Sprint Pro Flue Probe with Water Stop Technology
- Pro Infrared Magnetic Printer (USB Charging)
- Spare Washable Particulate Filter
- 1 x AS/10 Clamp Pipe Temperature Probe
- Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 5 Safety Kit

Code
PRO5 SAFETYKIT

Kit includes:

- Sprint Pro 5 Flue Gas Analyser
- 2 x Pipe Clamp Temperature Probe
- Pressure Relief Valve
- Clip SGD Carbon Monoxide 30/100 PPM
- Certificate of Calibration & CD-ROM/Quick Start Guide

Anton Sprint Pro 5 Combo Kit

Code
PRO5 COMBOKIT

Kit includes:

- Sprint Pro 5 Flue Gas Analyser
- 2 x Pipe Clamp Temperature Probe
- **Sprinter IR Printer**
- Clip SGD Carbon Monoxide 30/100 PPM
- Sprint Pro Extendable Probe Handle
- Certificate of Calibration & CD-ROM/Quick Start Guide

TESTO FLUE GAS ANALYSERS

- Basic analyser for domestic FGA tests
- Fixed probe
- Robust and light instrument for daily use
- Integrated measurement menu for flue gas, draught, CO ambient air and pressure
- Quick sensor zero in only 30 seconds

- Covers 5 main domestic FGA tests
- Flue gas, draught, tightness & Let-by, ambient CO
- Diff. temperature & pressure with advanced kits
- Pump shut down to protect against high CO

TESTO 327-1 ADVANCED KIT

"This analyser surpassed my expectations in quality and ease of use. I had an analyser from a different manufacturer for a number of years and was reluctant to change, but I can see the benefits with Testo."

Billy O'Connor

Testo 310 Standard Kit

Code
T0563 3100

- Kit includes:
- Testo 310 Flue Gas Analyser
 - Rechargeable Battery
 - USB Mains Cable
 - Silicon Hose for Pressure
 - 5 x Filters
 - Calibration Protocol
 - 180mm Probe with Cone
 - Spare Pressure Plugs
 - Hard Case

Testo 310 Printer Kit

Code
T0563 3110

- Kit includes:
- Testo 310 Flue Gas Analyser
 - Testo IR printer
 - 2 x Thermal Printer Roll
 - Rechargeable Battery
 - USB Mains Cable
 - Silicon Hose for Pressure
 - 5 x Filters
 - Calibration Protocol
 - 180mm Probe with Cone
 - Spare Pressure Plugs
 - Hard Case

Testo 327-1 Standard Kit

Code
T0563 3203 80

- Kit includes:
- Testo 327 Flue Gas Analyser
 - Rechargeable Battery
 - Calibration Protocol
 - Flue Gas Probe (180mm x 6mm diameter)
 - Soft Carry Case with Shoulder Strap
 - AC Power Supply

Testo 327-1 Advanced Kit

Code
T0563 3203 81

- Kit includes:
- Testo 327 Flue Gas Analyser
 - Rechargeable Battery
 - Calibration Protocol
 - Flue Gas Probe (180mm x 6mm diameter)
 - Pressure Hose Connection Kit
 - Differential Temperature Kit (2 x Pipe Clamp Probes)
 - Testo Infrared Printer
 - Soft Carry Case with Shoulder Strap
 - AC Power Supply

Testo 327 - Standard Kit (+316i Gas Leak Detector)

Code
T300563 1327

- Kit includes:
- Testo 327 Flue Gas Analyser
 - Rechargeable Battery
 - Calibration Protocol
 - Flue Gas Probe (180mm x 6mm diameter)
 - Soft Carry Case with Shoulder Strap
 - AC Power Supply
 - Testo 316i Gas Leak Detector

Testo 327 - Advanced Kit (+316i Gas Leak Detector)

Code
T300563 2327

- Kit includes:
- Testo 327 Flue Gas Analyser
 - Rechargeable Battery
 - Calibration Protocol
 - Flue Gas Probe (180mm x 6mm diameter)
 - Pressure Hose Connection Kit
 - Differential Temperature Kit (2 x Pipe Clamp Probes)
 - Testo Infrared Printer
 - Soft Carry Case with Shoulder Strap
 - AC Power Supply
 - Testo 316i Gas Leak Detector

TESTO FLUE GAS ANALYSERS

- Clear operation via colour display
- Intuitive touch operation
- Send reports by wireless LAN
- Covers 5 main domestic fga tests
- Flue gas, draught, tightness & Let-by, ambient CO
- Diff. temperature probes and pressure connection set with advanced kits
- Pump shutdown to protect against high CO

- NOx sensor ready
- Long life 6-year sensors
- Intuitive, smart, efficient measurement menus
- On site documentation and e-mailing of reports
- Fast response smart touch operation
- Up to 30,000 ppm

Testo 300 Longlife Printer Kit (NOx)
Code: T0564 3004 84

- Kit includes:
- Testo 300 LL FGA with O2 and CO (H2 compensated) sensor up to 30,000 ppm via auto dilution + NO sensor (0633 3004 83)
 - USB Mains Unit, incl. Cable (0554 1105)
 - Modular style flue gas probe, 180 mm; Ø 8 mm; Tmax. 500°C; 1.5 m hose; including cone for fixing (0600)
 - Testo Bluetooth® connector (0554 3004)
 - Bluetooth / IRDA printer (0554 0621)
 - Hard carry case (0516 3300)

Testo 300 Standard Kit
Code: T0564 3002 90

- Kit includes:
- Testo 300 FGA with O2 and CO Sensor up to 4,000 ppm (0633 3002 78)
 - USB Mains Unit, incl. Cable (0554 1105)
 - Compact basic flue gas probe, 180 mm; Ø 6 mm; Tmax. 500°C; 1.5 m hose; including cone for fixing (0600 9740)
 - Soft Case (0516 3001)

Testo 300 Advanced Kit
Code: T0564 3002 91

- Kit includes:
- Testo 300 FGA with O2 and CO Sensor up to 4,000 ppm (0633 3002 70)
 - USB Mains Unit, incl. Cable (0554 1105)
 - Compact basic flue gas probe, 180 mm, Ø 6 mm, Tmax. 500°C; 1.5 m hose; including cone for fixing (0600 9740)
 - 2 x clamp probes (NTC) for temperature measurements on pipes (Ø 6-35 mm) with fixed cable (1.4 m) (0615 5505)
 - Pressure connection kit with 2 silicone hoses (Ø 6 mm and Ø 4 mm, each 1 m long) and measuring instrument adaptor for Testo 300 (0554 1203)
 - Soft Case (0516 3001)

Testo 300 Longlife Standard Kit
Code: T0564 3004 82

- Kit includes:
- Testo 300 LL FGA with O2 and CO H2-compensated sensor up to 30,000 ppm, NO - can be retrofitted (0633 3004 83)
 - USB Mains Unit, incl. Cable (0554 1106)
 - Modular flue gas probe 180 mm, Ø 8 mm, Tmax. 500°C; TÜV tested and certified; 2.2 m hose (0600 9760)
 - Spare dirt filters for modular flue gas probe; 10 off (0554 3385)
 - Free download EasyHeat PC software (0554 3332)
 - Instrument Case (height: 130 mm) (0516 3300)

Testo 300 Longlife Printer Kit
Code: T0564 3004 89

- Kit includes:
- Testo 300 LL FGA with O2 and CO H2-compensated sensor up to 30,000 ppm, NO - can be retrofitted (0633 3004 88)
 - USB Mains Unit, incl. Cable (0554 1106)
 - Modular flue gas probe 180 mm, Ø 8 mm, Tmax. 500°C; TÜV tested and certified; 2.2 m hose (0600 9760)
 - Spare dirt filters for modular flue gas probe; 10 off (0554 3385)
 - BLUETOOTH®/IRDA printer, including 1 roll of thermal paper and rechargeable battery (0554 0621)
 - Spare thermal paper for printer, indelible ink (0554 0568)
 - Free download EasyHeat PC software (0554 3332)
 - Instrument Case (height: 130 mm) (0516 3300)

FLUE GAS ANALYSER UPGRADE SETS & KITS

Testo 300 FGA Smart Upgrade Set

- Bluetooth® connection from the Testo 300 flue gas analyser to Testo Smart Probes
- Including O2 and CO sensor up to 4,000 ppm
- Connection to Testo 115i for measuring the temperature of flow and return pipes in parallel to flue gas measurements
- Connection to Testo 915i for temperature and combustion air temperature measurement in parallel to flue gas measurements

Code: T300564300203

- Kit includes:
- Testo Bluetooth® Connector (0554 3004)
 - 1 x Testo 510i Smart Probe Manometer (0560 1510)
 - 2 x Testo 115i Smart Probe Pipe Clamp Thermometers (0560 2115 02)

Testo 300 FGA Smart Kit

- For testing domestic gas & oil boilers
- Flue gas, tightness & let-by, differential temperature & pressure, ambient CO, & draught measurement menus
- 4,000 ppm CO sensor with automatic pump shut off to prevent over-ranging
- EN50379-1/3 and BS7967 compliant

Code: T300564300201

- Kit includes:
- Testo 300 flue gas analyser with O2 and CO sensor up to 4,000 ppm (0633 3002 78)
 - USB Mains Unit, incl. Cable (0554 1105)
 - Compact basic flue gas probe, 180 mm; Ø 6 mm; Tmax. 500°C; 1.5 m hose; including cone for fixing (0600 9740)
 - 1 x Testo 510i Smart Probe Manometer (0560 1510)
 - 2 x Testo 115i Smart Probe Pipe Clamp Thermometers (0560 2115 02)
 - Testo Bluetooth® Connector (0554 3004)
 - Soft Case (0516 3001)

Testo 300 FGA Ultra Smart Kit

- For testing domestic gas & oil boilers
- Flue gas, tightness & let-by, differential temperature & pressure, ambient CO, & draught measurement menus
- 4,000 ppm CO sensor with automatic pump shut off to prevent over-ranging
- EN50379-1/3 and BS7967 compliant

Code: T300564300202

- Kit includes:
- Testo 300 flue gas analyser with O2 and CO sensor up to 4,000 ppm (0633 3002 78)
 - USB Mains Unit, incl. Cable (0554 1105)
 - Compact basic flue gas probe, 180 mm; Ø 6 mm; Tmax. 500°C; 1.5 m hose; including cone for fixing (0600 9740)
 - 1 x Testo 510i Smart probe manometer (0560 1510)
 - 2 x Testo 115i Smart probe pipe clamp thermometers (0560 2115 02)
 - 1 x Testo 316i gas escape detector (0560 3161)
 - Testo Bluetooth® connector (0554 3004)
 - Soft Case (0516 3001)

KANE FLUE GAS ANALYSERS

Kane 258 with direct CO, O2 & CO sensor protection

Code
KA258

Kane 258 Kit

Code
KA258KIT

Kit includes:

- Sprint Pro Quick Drop-in Bag
- USB Charger & Lead
- Sprint Pro Flue Probe with Water Stop Technology
- Pro Infrared Magnetic Printer (USB Charging)
- Spare Washable Particulate Filter
- 1 x AS/10 Clamp Pipe Temperature Probe
- Certificate of Calibration & CD-ROM/Quick Start Guide

Entry level FGA for domestic gas applications

- Easy to use rotary dial
- Purge pump protection prevents accidental damage to CO sensor
- Hydrogen (H₂) ready – up to 20% blend
- Rotary dial & 6 line display
- Wireless option
- Data hold, log & print to optional printer
- Produce test reports: Combustion & temperature
- USB Charger

Kane 458S with direct CO₂, CO & over-range protection

Code
KA458S

Kit includes:

- Sprint Pro Quick Drop-in Bag
- USB Charger & Lead
- Sprint Pro Flue Probe with Water Stop Technology
- Pro Infrared Magnetic Printer (USB Charging)
- Spare Washable Particulate Filter
- 1 x AS/10 Clamp Pipe Temperature Probe
- Certificate of Calibration & CD-ROM/Quick Start Guide

Kane 458S Standard Kit

Code
KA458SK

Kit includes:

- Sprint Pro Quick Drop-in Bag
- USB Charger & Lead
- Sprint Pro Flue Probe with Water Stop Technology
- Pro Infrared Magnetic Printer (USB Charging)
- Spare Washable Particulate Filter
- 1 x AS/10 Clamp Pipe Temperature Probe
- Certificate of Calibration & CD-ROM/Quick Start Guide

Kit includes:

- Sprint Pro Quick Drop-in Bag
- USB Charger & Lead
- Sprint Pro Flue Probe with Water Stop Technology
- Pro Infrared Magnetic Printer (USB Charging)
- Spare Washable Particulate Filter
- 1 x AS/10 Clamp Pipe Temperature Probe
- Certificate of Calibration & CD-ROM/Quick Start Guide

Kane 458S CPA1 Kit

Code
KA458SC

Kit includes:

- Sprint Pro Quick Drop-in Bag
- USB Charger & Lead
- Sprint Pro Flue Probe with Water Stop Technology
- Pro Infrared Magnetic Printer (USB Charging)
- Spare Washable Particulate Filter
- 1 x AS/10 Clamp Pipe Temperature Probe
- Certificate of Calibration & CD-ROM/Quick Start Guide

Test domestic gas, oil, biomass & commercial appliances up to 120KW

- Optional sensors include CO to 10,000ppm with H₂ compensation, NO(x) & ambient CO₂
- Test homes, commercial kitchens & workplaces for CO & CO₂ (optional)
- Structured tests include tightness and CO & CO₂ build up
- Easy to use rotary dial & large display
- Hydrogen (H₂) ready – up to 20% blend
- KANE LINK - our future proof promise - Heat Pumps, 100% H₂ & HVO appliances when required

MANOMETERS

Anton APM 155 Differential Manometer with Infrared and Wi-Fi

Dimensions	185 x 75 x 43 mm
Weight	395 g inc. batteries
Display	Large high-resolution colour display
Range	0 to 2100 mbar
Resolution	0.1 up to 999.9 mbar, then 1 resolution
Units of Pressure	mbar, Pa, hPa, kPa, PSI, inWG, mmWG, inHg, mmHg
Battery type	3 x AA alkaline batteries

Includes:

- APM 155 Differential Pressure Meter
- Rubber boot included with magnet, tilt stand and hanging hook
- High pressure spigot connections
- 3 x AA (1.5 V) Alkaline batteries supplied (MN1500 / LR6)

Code
APM 155

- Suitable for medium pressure testing and strength testing up to 2 bar (2000 mbar)
- High pressure spigot connections. For tube size 6mm OD / 4mm ID
- Test, log and share data.
- Carry out and create gas rate PDF reports (when used in conjunction with Sprint Mobile app)
- Robust & simple to use with menu driven software
- 8 x Units of pressure measurement
- Large high resolution colour display
- Timed Let-by / Stabilisation and Tightness test
- Timed pressure test with duration, start & finish pressures
- Timed strength test with duration, start & finish pressures
- Save logs and print results to infrared printer (optional extra) with your company name & number on, or wireless transfer to Sprint Mobile app (IOS or Android) to create professional personalised PDF customer reports
- Simple push button zero
- Measurement range: 0 to 2 bar (2000 mbar)
- 0.1 resolution up to 999.9 mbar then 1 resolution

Anton APM 145 Differential Manometer with Infrared and Wi-Fi

Dimensions	185 x 75 x 43 mm
Weight	395 g inc. batteries
Display	Backlit hi-res colour
Range	-39.99 to 130 mbar
Resolution	0.01 up to 19.99 mbar, 0.1 from 20 to 130 mbar
Units of Pressure	mbar, p.s.i., mmHg, mmH ₂ O, inH ₂ O, Pa, hPa and kPa
Battery type	3 x AA alkaline batteries

Includes:

- APM 145 Differential Pressure Meter
- Rubber boot with magnet, tilt stand and hanging hook
- 3 x AA (1.5 V) Alkaline batteries supplied (MN1500 / LR6)

Code
APM 145

- Suitable for all domestic pressure testing
- Standard push fit spigot connections
- Test, log and share data, perfect for smart meter testing
- Also carry out and create gas rate pdfreports (when used in conjunction with sprint mobile app)
- Robust & simple to use with menu driven software
- 8 x units of pressure measurement
- Large high resolution colour display
- Timed let-by / stabilisation and tightness test
- Working pressure test
- Operating pressure test
- Flue draught test
- Save logs and print test results to infrared printer (optional extra) with your company name & number on, or wireless transfer to sprint mobile app (ios or android) to create professional personalised pdf customer reports
- Simple push button zero
- Measurement range: -39.99 To 130.0 mbar
- 0.01 Resolution up to 19.99 mbar then 0.1 Resolution

Anton APM 135 Differential Manometer

Dimensions	185 x 75 x 37 mm
Weight	360 g inc. batteries
Display	LCD
Range	-39.99 to 130 mbar
Resolution	0.01 up to 19.99 mbar, 0.1 from 20 mbar to 130 mbar
Units of Pressure	mbar, p.s.i., mmHg, mmH ₂ O, inH ₂ O, Pa, hPa and kPa
Battery type	3 x AA alkaline batteries

Includes:

- Apm 135 Differential Pressure Meter
- Standard Rubber Boot
- 3 x AA (1.5 V) Alkaline Batteries supplied (MN1500 / LR6)

Code
APM135

- Suitable for all domestic pressure testing
- Standard push fit spigot connections
- Just test - No data transfer
- Great value for money
- Robust & simple to use
- 8 x Units of pressure measurement
- Clear backlit LCD display
- Max / Min recording to monitor any pressure drops
- Simple push button zero
- Measurement range: -39.99 to 130.0 mbar
- 0.01 resolution up to 19.99 mbar then 0.1 resolution

MANOMETERS

Testo 510 Digital Differential Pressure Manometer

Dimensions	119 x 46 x 25 mm
Weight	90 g (with batteries and protective cap)
Operating temperature	0 to 50 °C
Battery type	2 x AAA batteries
Battery life	50 hrs (average, without display illumination)
Storage temperature	-40 to 70 °C
Protection class	IP40
Selectable units	hPa, mbar, Pa, mmH2O, inH2O, inHg, mmHg, psi, m/s, fpm
Maximal static pressure	500 mbar
Warranty	2 Years
Differential pressure (internal sensor) - Piezoresistive	
Measuring range	0 to 100 hPa
Accuracy	±0.03 hPa (0 to 0.30 hPa) ±0.05 hPa (0.31 to 1.00 hPa) ±(0.1 hPa + 1.5 % of mv) (1.01 to 100 hPa)
Resolution	0.01 hPa

- Pocket-sized temperature and air density-compensated differential pressure measurement
- Illuminated display
- Magnets on the rear allow hands-free work
- 50 hours of battery life
- 10 selectable units
- Flow measurement possible with a Pitot Tube (available as an option)

Includes:

- Testo 510 - Differential Pressure Meter
- Protection Cap
- Belt Holder
- 2 x Connection Hoses
- Wrist Strap
- Calibration Protocol

Code
T0563 0510

Testo 510i Bluetooth Differential Pressure Meter Smart Probe

Dimensions	148 x 36 x 23 mm
Weight	92 g
Operating temperature	-20 °C to 50 °C
Product-/housing material	ABS / TPE
System Requirements	iOS 8.3 / Android 4.3 or newer & mobile device with Bluetooth
Battery type	3 x AAA batteries
Battery life	150 hrs
Storage temperature	-20 °C to 60 °C
Warranty	2 Years
Differential pressure (internal sensor) - Piezoresistive	
Measuring range	-150 to +150 hPa
Accuracy	±0.05 hPa (0 to +1 hPa) ±(0.2 hPa + 1.5 % of mv) (+1 to +150 hPa)
Resolution	0.01 hPa

- Pocket-sized temperature and air density-compensated differential pressure measurement
- Measurement of gas flow and static pressure
- Measurement menu for pressure drop test including alerts
- Magnetic holder for easy attachment

Includes:

- Testo 510i Differential Pressure Measuring Instrument with Smartphone Operation
- Including Hose Set (Ø 4 mm and 5 mm) with Adaptor
- Batteries
- Calibration Protocol

Code
T0560 1510

THERMOMETERS & K TYPE PROBES

Testo Smart Probes VAC Set

For air-conditioning engineers: Compact kit containing four measuring instruments for your most important measuring tasks in, on and involving air conditioning systems. The Testo Smart App enables you to work more easily and efficiently: Use intuitive measurement menus for volume flow measurement, automatic calculation of the dew point and wet bulb temperature, or detecting areas susceptible to mould according to the traffic light principle. Measurement data reports can be emailed directly as a PDF or Excel file.

- Measurement of air and surface temperature, humidity, air velocity and volume flow
- Measurement menus for volume flow measurement in ducts and at outlets, identification of mould risk, easy image documentation including IR temperature reading and measurement spot marking
- Display measurement data as a graph or table and analyse and send via Testo Smart Probes App
- In conjunction with your smartphone/tablet, carry out the most important measurements involved in air conditioning systems

Testo Smart Probes Bluetooth Heating Set

For heating engineers: Compact kit containing three measuring instruments for carrying out your most important measuring tasks involving heating systems. The Testo Smart App enables you to work more easily and efficiently: Use the measurement menus for pressure drop test with alarm function or for non-contact IR temperature measurement with image documentation including measuring value and measurement spot marking. Measurement data reports can be emailed directly as a PDF or Excel file.

- Non-contact temperature measurement, measurement of flow and return temperature as well as gas flow pressure
- Measurement menu for pressure-drop test including alarm function
- Display measurement data as a graph or table and analyze and send via Testo Smart App
- In conjunction with your smartphone/tablet, measure and check all heating system temperatures and pressures

THERMOMETERS & K TYPE PROBES

Testo 115i Bluetooth Clamp Thermometer Smart Probe

Sensor Type	NTC
Measuring range	-40 to +150 °C
Accuracy ±1 digit	±1.3 °C (-20 to +85 °C)
Resolution	0.1 °C
General Technical Data	
Compatibility	Requires iOS 8.3 or newer / Android 4.3 or newer/ Bluetooth 4.0
Storage temperature	-20 to +60 °C
Operating temperature	-20 to +50 °C
Battery type	3 micro batteries AAA
Battery life	150 hrs
Dimensions	183 x 90 x 30 mm
Bluetooth range	up to 100 m

- Convenient temperature measurement on refrigeration, air conditioning and heating systems – thanks to wireless connection to your smartphone or tablet
- Fast identification of temperature changes by graphic progression display
- Measurement data analysed and sent via Testo Smart Probes App
- Problem-free application at measuring points that are a long distance apart thanks to Bluetooth® range up to 100 m

Includes:

- Testo 115i Clamp Thermometer Operated Via Smartphone
- Batteries
- Calibration Protocol

Code
T0560 2115

Testo 605i Bluetooth Thermal Hygrometer Smart Probe

Sensor type	Humidity – capacitive
Measuring range	0 to 100 %RH
Accuracy (at +25 °C) ±1 digit	±3.0 %RH (10 to 35 %RH) ±2.0 %RH (35 to 65 %RH) ±3.0 %RH (65 to 90 %RH) ±5 %RH (< 10 %RH or > 90 %RH)
Resolution	0.1 %RH
Sensor type	NTC
Measuring range	-20 to +60 °C
Accuracy ±1 digit	±0.8 °C (-20 to 0 °C) ±0.5 °C (0 to +60 °C)
Resolution	0.1 °C
General Technical Data	
Compatibility	Requires iOS 8.3 or newer / Android 4.3 or newer/ Bluetooth 4.0
Storage temperature	-20 to +60 °C
Operating temperature	-20 to +50 °C
Battery type	3 micro batteries AAA
Battery life	150 hrs
Dimensions	218 x 30 x 25 mm / 73 mm probe shaft
Bluetooth range	up to 100 m

- Measurement of air humidity and temperature in rooms and ducts
- Automatic calculation of the dew point and wet bulb temperature via Testo Smart App
- Measurement data analysed and sent via Testo Smart Probes App
- Problem-free application at measuring points that are a long distance apart thanks to Bluetooth® range up to 100 m

Includes:

- Testo 605i Thermohygrometer operated via Smartphone
- Batteries
- Calibration Protocol

Code
T0560 2605

Testo 805i Bluetooth Infrared Thermometer Smart Probe

Sensor type	Infrared
Measuring range	-30 to +250 °C
Accuracy (at +25 °C) ±1 digit	±1.5 °C or ±1.5 % of reading (0 to +250 °C) ±2.0 °C (-20 to -0.1 °C) ±2.5 °C (-30 to -20.1 °C)
Resolution	0.1 °C
General Technical Data	
Compatibility	Requires iOS 8.3 or newer / Android 4.3 or newer/ Bluetooth 4.0
Storage temperature	-20 to +60 °C
Operating temperature	-20 to +50 °C
Battery type	3 micro batteries AAA
Battery life	30 hrs
Dimensions	140 x 36 x 25 mm
Optics	up to 100 m
Laser marking	Diffraction optics (laser circle)
Emissivity	0.1 to 1.0 adjustable

- Non-contact infrared measurement of surface temperature
- Easy selection of emission level via stored materials list
- Highly visible marking of the measuring spot thanks to 8-point laser
- Image documentation with readings and measuring spot marking

Includes:

- Testo 805i Infrared Thermometer with Smartphone Operation
- Batteries
- Calibration Protocol

Code
T0560 1805

THERMOMETERS & K TYPE PROBES

Testo 915i Bluetooth Thermometer Smart Probe

Sensor type	TC Type K
Measuring range	-50 to +400 °C
System accuracy (handle Testo 915i + probe)	±1.0 °C (-50 to +100 °C) ±1 % of measured value
Resolution	0.1 °C
Reaction time	t ₉₀ : 60 s
Protection class	IP20
Probe dimensions	99 x Ø 4 mm
Probe locking	Yes (with handle Testo 915i)
General Technical Data	
Compatibility	Requires iOS 8.3 or newer / Android 4.3 or newer/ Bluetooth 4.0
Storage temperature	-20 to +60 °C
Operating temperature	-20 to +50 °C
Battery type	3 micro batteries AAA
Battery life	150 hrs
Dimensions	129 x 31 x 31 mm
Bluetooth range	up to 100 m

Includes:

Wireless Smart Probe Testo 915i with air probe (TC Type K), including batteries and calibration protocol.

- Robust, fast-response air temperature probe (TC type K, class 1), measuring range -50 to +400 °C
- High measuring accuracy up to ±1.0 °C thanks to system calibration ex-works
- For fast, wireless ambient temperature measurements and measurements in ducts and at air outlets
- Innovative locking mechanism on the handle for easy, secure attachment of plug-in Testo measuring probes
- Versatile in all temperature-relevant applications: Compatible with all Testo and standard type K thermocouple probes
- Testo Smart App: Display of readings, clear graphical presentation of temperature curves, create documentation on site and send as a PDF or CSV file
- Automatic Bluetooth connection to smartphones, tablets or compatible Testo measuring instruments
- Bluetooth with a range of up to 100 m
- Handy, robust housing
- Thanks to its proven quality and great durability, you can rely on your Testo Smart Probe in all conditions

Code
T0563 3915

Anton ADT 200 Differential Thermometer

Sensor Type	K thermocouple
Measuring range	Range 0.1°C (-99.9 to 299.9°C) Range 1°C (300 to 1372°C)
Accuracy	±0.4°C ±0.1% of reading
Resolution	0.1 °C to 299.9°C thereafter 1°C
Operating Temperature	-200 to 1350°C
Display	15mm LCD
Battery Type	x3 AAA batteries
Battery Life	7,500 hours
Dimensions	32 x 71 x 141 mm
Weight	220 g
Water/dust resistance	IP66/67 protection
Certification	FREE traceable calibration certificate
Warranty	2 Years

Ideal for setting up flow and return temperatures; balancing heating systems; and checking and setting thermostats. Used for Benchmark Code of Practice.

- Differential digital thermometer Range 0.1°C (-99.9 to 299.9°C) Range 1°C (300 to 1372°C)
- Type K probe connection(s)
- Centigrade or Fahrenheit
- Water resistant
- Backlit display

Code
ATM200-1

VOLTAGE TESTERS

Testo 750-1

Dimensions	270 x 65 x 35 mm
Weight	230 g
Storage temperature	-15 to +60 °C
Operating temperature	-10 to +50 °C
Operating humidity	0 to 95% RH
Battery type	2 x AAA batteries
Overvoltage Category	CAT IV 600V; CAT III 1000V
Standards	EN 61243-3; EN 61326-1; EN 61010-1
Authorisations	CSA; CE
Protection class	IP64
Authorisations	CSA; CE
AC/DC Voltage	
Measuring range	12 to 690 V
Accuracy	According to DIN EN 61243-3:2011

- Clear, patented all-round LED display
- Complies with the current standard for voltage detectors DIN EN 61243-3: 2010
- Fibre-optics for optimum voltage indication
- Robust housing with ergonomic handle and anti-slip ring

Includes:

- Testo 750-1 Voltage Tester
- Batteries
- Measuring Tip Protector and Measuring Tip Caps

Code
T0590 7501

Testo 750-2

Dimensions	270 x 70 x 35 mm
Weight	295 g
Storage temperature	-15 to +60 °C
Operating temperature	-10 to +50 °C
Operating humidity	0 to 95% RH
Battery type	2 x AAA batteries
Overvoltage Category	CAT IV 600V; CAT III 1000V
Standards	EN 61243-3; EN 61326-1; EN 61010-1
Authorisations	CSA; CE
Protection class	IP64
AC/DC Voltage	
Measuring range	12 to 690 V
Accuracy	According to DIN EN 61243-3:2011

- Clear, patented all-round LED display
- In accordance with DIN EN 61243-3:2011 and CAT III
- With practical torch for measuring point illumination
- Including RC trigger function and vibrating load buttons

Includes:

- Testo 750-2 -Voltage Tester
- Batteries
- Measuring Tip Protector and Measuring Tip Caps

Code
T0590 7502

Testo 750-3

Dimensions	270 x 70 x 35 mm
Weight	295 g
Storage temperature	-15 to +60 °C
Operating temperature	-10 to +50 °C
Operating humidity	0 to 95% RH
Display Type	LCD (Liquid Crystal Display)
Battery type	2 x AAA batteries
Overvoltage Category	CAT IV 600V; CAT III 1000V
Standards	EN 61243-3; EN 61326-1; EN 61010-1
Authorisations	CSA; CE
Protection class	IP64
Display Size	1 line
AC Voltage	
Measuring range	12 to 690 V
Resolution	max. 0.1 V
Accuracy	± (3 % of mv + 5 Digit)
DC Voltage	
Measuring range	12 to 690 V
Resolution	max. 0.1 V
Accuracy	± (3 % of mv + 5 Digit)

- Clear, patented all-round LED display
- In accordance with DIN EN 61243-3:2011 and CAT III
- LC display showing the reading
- RC trigger function and vibrating load buttons

Includes:

- Testo 750-3 Voltage Tester
- Batteries
- Measuring Tip Protector and Measuring Tip Caps

Code
T0590 7503

Testo 745 Non-Contact

Dimensions	155 x 25 x 23 mm
Weight	63 g
Storage temperature	-15 to +60 °C
Operating temperature	-10 to +50 °C
Operating humidity	0 to 80% RH
Battery type	2 x AAA batteries
Overvoltage Category	CAT IV 600V; CAT III 1000V
Standards	EN 61326-1; EN 61010-1
Authorisations	CSA; CE
Protection class	IP67
Alarm function	via LED; audible
AC Voltage	
Measuring range	12 to 1000 V

- Voltage range up to 1,000 V
- Waterproof and dustproof according to IP 67
- Adjustable for phase detection or voltage indication
- Visual and acoustic signal

Includes:

- Testo 745 - Voltage Tester (Non-Contact)
- Batteries

Code
T0590 7450

CLAMP METERS

Testo 770-1 TRMS Clamp Meter

Dimensions	249 x 96 x 43 mm
Weight	378 g
Operating temperature	-10 to +50 °C
Protection class	IP40
Standards	EN 61326-1; EN 61010-2-032; EN 61140
Battery type	3 x AAA batteries
Display Type	LCD (Liquid Crystal Display)
Display Size	2 lines
Interface	2 measuring jacks
Storage temperature	-15 to +60 °C
Operating humidity	0 to 80% RH
Overvoltage Category	CAT IV 600V; CAT III 1000V
Authorisations	CSA; CE
Internal Resistance	11 MOhm (AC/DC)

- Fully retractable pincer arm for maximum flexibility
- Auto AC/DC
- Large two-line display
- Measures the common electrical parameters

Includes:

- Testo 770-1 Trms Clamp Meter
- Batteries
- 1 Set of Measuring Cables

Code
T0590 7701

AC Voltage	
Measuring range	1 mV to 600.0 V
Resolution	max. 1 mV
Accuracy	± (1.0 % of mv + 3 Digit)

DC Voltage	
Measuring range	1 to 600 V
Resolution	max. 0.1 mV
Accuracy	± (0.8 % of mv + 3 Digit)

AC/DC Current	
Measuring range	0.1 to 400 A
Resolution	max. 0.1
Accuracy	± (2 % of mv + 5 Digit)

Resistance	
Resolution	max. 0.1 Ohm
Measuring range	0.1 to 40.00 MOhm
Accuracy	± (1.5 % of mv + 3 Digit)

Capacitance	
Resolution	max. 0.01 nF
Measuring range	10 nF to 100.0 µF
Accuracy	± (1.5 % of mv + 5 Digit)

Frequency	
Measuring range	10 nF to 100.0 µF
Accuracy	±(0.1 % + 1 Digit)

MULTIMETERS

The Testo 760 digital multimeter family comprises three models for all important electrical measuring tasks. Function keys replace the traditional dial on all three instruments, which makes operation and greater reliability. Incorrect settings are now impossible because the measurement parameters are detected automatically via the assignment of the measuring sockets and also shown by the illumination of the appropriate function keys. This prevents accidentally blowing the meter's fuse because of faulty connections.

The Testo 760-1 model is the standard version for virtually all daily measuring tasks.

The Testo 760-2 is differentiated by a larger current measurement range; the true root means square measurement - TRMS - and a low-pass filter.

- Easy, reliable operation through automatic measurement parameter detection
- Prevents incorrect settings
- Suitable for almost all electrical measuring tasks
- Clear, illuminated display

- Easy, reliable work thanks to automatic measurement parameter detection
- Current measurement in the μA range
- True root mean square measurement - TRMS
- Low-pass filter for accurate measurement results on frequency converter controlled motors

	Testo 760-1 T0590 7601	Testo 760-2 T0590 7602
True RMS	N/A	Yes
Basic accuracy	0.8 %	0.1 %
Voltage measuring range	0.1 mV to 600 V AC/DC	
Current measuring range	1 mA to 10 A AC/DC	0.1 μA to 10 A AC/DC
Resistance measuring range	0.1 to 40 M Ω	0.1 to 60 M Ω
Frequency measuring range	0.001 Hz to 512 kHz	0.001 Hz to 30 MHz
Capacitance measuring range	0.001 nF to 100 μF	0.001 nF to 30,000 μF
Temperature measuring range	N/A	-20 to +500 °C
Continuity testing		Yes
Diode test		Yes
Display (counts)	4,000	6,000
Measurement category	CAT IV 300 V CAT III 600 V	CAT IV 600 V CAT III 1,000 V
Protection class		IP 64
Operating temperature		-10 to +50 °C
Storage temperature		-15 to +60 °C
Dimensions	167 x 84 x 45 mm (L x W x H)	
Weight	340 g	
Authorizations	CSA, CE	
Standards	EN 61326-1	

AIR FLOW METERS

Testo 410-1 Compact Vane Anemometer

Testo 410-1 measures air speed and temperature. It is ideal for quick spot checks at air outlets on account of its integrated measurement with the 40mm vane.

Timed mean calculation is possible. In addition to air speed and temperature, Testo 410-2 also measures air moisture. Testo's very own, patented humidity sensor guarantees accurate readings. In this way, air conditions can be reliably checked.

Includes:

Testo 410-1 - Vane Anemometer for measuring air velocity and air temperature, protective cap, wrist strap, calibration protocol and batteries.

- Vane anemometer with permanently installed 40mm vane
- Measurement of air velocity and air temperature
- Calculates wind chill and the Beaufort wind force
- Practical: with single-point averaging, max/min and Hold function

Technical Data	
Storage temperature	-20 to 70 °C
Operating temperature	-10 to 50 °C
Battery type	2 x AAA
Battery life	100 hours
Weight	110 g
Dimensions	133 x 46 x 25 mm
Temperature - NTC	
Measurement range	-10 to 50 °C
Accuracy	± 0.5 °C
Resolution	0.1 °C
Velocity - Vane	
Measurement range	0.4 to 20m/s
Accuracy	$\pm (0.2 \text{ m/s} + 2\% \text{ of mv})$
Resolution	0.1 m/s

Code
T0560 4101

Testo 416 Bluetooth Digital 16mm Vane Anemometer

The compact 16 mm vane anemometer testo 416 with telescopic probe and App connection is ideal for simple, fast and precise determination of flow velocity and volume flow in ventilation ducts of air conditioning and ventilation systems. The connection to the testo Smart App enables configuration, display (also as second screen) and storage as well as documentation of the measured values directly in the App.

Includes: Testo 416 - 16 mm vane anemometer with App connection, fixed telescope (max. 850 mm), transport bag,

Calibration protocol, 3 x AA batteries.

- Simple, fast and precise flow measurement and volume flow calculation in the ventilation duct
- More flexibility for duct measurements with the cable-connected telescopic probe (maximum length 850 mm)
- Fast in-app (duct) configuration, graph history, second screen and measurement data memory in the Testo Smart App
- Timed and multi-point mean calculation

Technical Data	
Storage temperature	-10 to +50 °C
Operating temperature	Measuring instrument: -10 to +50 °C Probe: -10 to +70 °C
Battery type	3 x AA
Battery life	60 h
Weight	232 g
Dimensions	Measuring instrument: 135 x 60 x 28 mm Cable length 1.5 m
Velocity - Vane	
Measurement range	0.6 to 40 m/s
Accuracy	$\pm (0.2 \text{ m/s} + 1.5 \% \text{ of mv})$
Resolution	0.1 m/s

Code
T0563 0416

Testo 417 Vane Anemometer Funnel Set

The measurement of flow velocity and the correct calculation of volumetric flow at ventilation outlets can be a challenge. The turbulence created here and differing flow directions make correct measurement more difficult.

The Testo 417 vane anemometer and the Testovent 417 measurement funnels provide you with perfect support for flow measurement at ventilation grilles and poppet valves. They ensure simple testing of incoming / outgoing air - such as in the controlled ventilation of living spaces.

Includes:

Testo 417 - Vane Anemometer plus Funnel set (0563 4170)

- Determining the volume flow by funnel measurement
- Testo 417 vane anemometer for measuring flow velocity, volumetric flow and temperature
- Included in the set: measurement funnels for poppet valves and ventilation grilles, along with a bag for storage
- Availability of different attachable measurement funnels
- Flow direction detection

Technical Data	
Storage temperature	-40 to +70 °C
Operating temperature	0 to +50 °C
Battery type	9V block battery, 6F22
Battery life	50 hours
Weight	230 g
Dimensions	277 x 105 x 45 mm
Temperature - NTC	
Measurement range	0 to +50 °C
Accuracy	± 0.5 °C
Resolution	0.1 °C
Velocity - Vane	
Measurement range	± 0.3 to +20 m/s
Accuracy	$\pm (0.1 \text{ m/s} + 1.5 \% \text{ of mv})$
Resolution	0.01 m/s
Volume Flow	
Measuring Range	0 to +99999 m ³ /h 0 to +440 m ³ /h (Testo 417 in combination with funnel set (0563 4170)) 0.1 to +200 m ³ /h, preferred 0.1 to 100 m ³ /h (Testo 417 in combination with funnel & flow straightener (0554 4172))
Resolution	0.1 m ³ /h (0 to +99.9 m ³ /h) 1 m ³ /h (+100 to +99999 m ³ /h)

Code
T0563 1417

GAS LEAK DETECTORS

Testo 316i Gas Leak Detector with Flexible Probe

Ideal if you wish to rule out or locate leaks in gas fittings – equipped with simple traffic light LED on the head and self-explanatory bar scale. In addition, ppm values and even %LEL (lower explosive limit) can be called up and documented via the app.

- Multi-colour LED (visual and acoustic alarm)
- Sensor self-test and automatic zeroing
- Flexible measuring probe for locations that are difficult to access
- Connection to Testo Smart App for documentation and ppm display
- Battery-powered

Testo 316i gas leak detector with flexible probe, including batteries

Code
T0560 3161

Testo 316-1 Gas Leak Detector with Explosion Protection (ATEX)

If you like to keep things simple, we recommend the Testo 316-1 gas leak detector. Identifying and locating leaks or even reading off concentration values in ppm or %LEL (lower explosive limits) are all exceptionally easy. No training required thanks to the intuitive traffic-light scale on the head and the display illumination.

- Multi-colour LED (visual and acoustic alarm)
- Sensor self-test and automatic zeroing
- Flexible probe for locations that are difficult to access
- Display with intuitive traffic light backlighting
- Battery-powered

Testo 316-1 gas leak detector with a flexible probe, including bag and batteries

Code
T0560 3162

Testo 316-1-EX Gas Leak Detector with Explosion Protection (ATEX)

The professional instrument for the fuel gas sector and for increased safety requirements. Certified explosion-proof thanks to explosion protection (ATEX, EU/EFTA). Additional functions such as fine mode and auto-identification of the typical gas groups make leak detection even easier. App integration for easy documentation.

- Multi-colour LED (visual and acoustic alarm)
- Flexible measuring probe for locations that are difficult to access
- Connection to Testo Smart App for documentation and ppm/%LEL display
- ATEX certification (EU/EFTA)
- Rechargeable battery
- Expert functions: Fine mode for precise leak detection and auto-identification of the most common gas types

Testo 316-1-EX gas leak detector with explosion protection (ATEX, EU/EFTA), includes bag and charger

Testo 316-2 Multi-Purpose Gas Leak Detector with Explosion Protection (ATEX)

The ultimate professional instrument featuring the world's first 2-in-1 sensor for gas fittings and heat pumps – perfect if you deal with fuel gases and refrigerants. Also offers all premium functions like 316-1-EX, including explosion protection (ATEX), fine mode and auto-identification of the most common gas types.

- Multi-colour LED (visual and acoustic alarm)
- Flexible measuring probe for locations that are difficult to access
- Connection to Testo Smart App for documentation and ppm display
- Rechargeable battery
- ATEX certification (EU/EFTA)
- Expert functions: Fine mode for precise leak detection and auto-identification of the most common gas types
- World's first 2-in-1 sensor for fuel gases and refrigerants (e.g. for heat pumps), for leak detection with no change of sensor

Testo 316-2-EX multi-purpose gas leak detector with explosion protection (ATEX, EU/EFTA), including bag and charger

Code
T0560 3164

Testo 317-2 Gas Leak Detector

Gas pipe connections can be safely and efficiently tested with the Testo 317-2 gas leak detector. The handy gas detector for new users detects two types of gas: methane and propane. The gas concentration is shown via a bar display. In addition, the gas leak detector indicates increasing gas concentrations via an acoustic alarm. The measuring instrument also confirms acoustically that it is ready for measuring.

- Display of gas concentration via bar display
- Self-test of sensor after switching on
- Pitch of alarm rises along with gas concentration
- Battery monitoring with optical display

Testo 317-2 - Gas Leak Detector, a case with belt clip and wrist strap and batteries

Code
T0632 3172

Measurement parameters	ppm, vol.%, %LEL, g/a
Detectable gases	Methane, propane, hydrogen, butane, forming gas (H2)

Battery life	4 h (LR03)
Reaction time	t90 < 5 s
Heat up time	60 s
Display type	8 segment trend display
Methane (CH4)	
Measuring range	100 to 20,000 ppm
Lower response threshold	100 ppm
1st alarm limit	10,000 ppm (20% LEL)
Propane (C3H8)	
Measuring range	50 to 10,000 ppm
Lower response threshold	50 ppm
1st alarm limit	5,000 ppm (20% LEL)

GAS LEAK DETECTORS

Anton AGM55

- Robust and simple to use
- Adjustable tick rate and sensitivity to pinpoint leaks
- Leaks detected from as little as 10ppm Methane
- Audible and visual alarm indicators
- Bright LED searchlight for poorly lit conditions
- Robust flexible gooseneck for those hard to reach areas
- Robust sensor head enclosure (no loose components)
- Side gooseneck clip for safe storage
- Standard rubber boot included
- 3 x AA (1.5V) Alkaline batteries supplied (MN1500 / LR6)

Dimensions	185 x 75 x 37 mm (body) 425 mm (probe length)
Weight	400g including batteries
Operating temperature	-10 to +50°C
Battery type	3 x AA alkaline batteries (supplied)
Battery life	>1500 x 1 minute readings*
Reaction time	Immediate
Heat up time	about 30 seconds
Display type	Audible and visual alarm indicators Bright LED searchlight for poorly lit conditions
Methane (CH4)	
Lower response threshold	10 ppm

Code	AGM 55
-------------	--------

Anton AGP45

- Suitable to detect any combustible gases
- Compact, affordable and simple to use
- Perfect for quick initial checks
- Adjustable tick rate and sensitivity to pinpoint leaks
- Leaks detected from as little as 30ppm Methane
- Audible and visual alarm indicators
- Bright LED searchlight for poorly lit conditions
- Belt pouch included
- 2 x AA (1.5v) Alkaline batteries supplied (MN1500 / LR6)

Dimensions	200 x 35 x 25 mm
Weight	120 g (including batteries)
Operating Humidity	-10 to +50°C
Battery type	3 x AA alkaline batteries (supplied)
Battery life	>800 x 20 second readings*
Reaction time	Immediate
Heat up time	about 30 seconds
Display type	Audible and visual alarm indicators Bright LED searchlight for poorly lit conditions
Methane (CH4)	
Lower response threshold	10 ppm

Code	AGP 45
-------------	--------

Duomo Gas Leak Detector

- Detects methane and propane gases
- Quick to pinpoint gas leaks
- Automatically calibrates at power-on
- Less than 60 second warm-up time
- Auto power off function
- Response time of less than 10 seconds
- 5-level LED alarm
- Over 440mm long flexible probe
- Built-in earphone jack
- Mute function

Dimensions	175 x 70 x 38 mm
Weight	50 g
Operating Temperature	-5 to +45 °C
Battery type	4 x AA batteries, 9V DC adaptor
Battery life	14 hours
Reaction time	10 seconds
Heat up time	less than 60 seconds
Display type	LED
Methane (CH4) & Propane (C3H8)	
Measuring range	40 – 640 ppm

Code	DUOM01
-------------	--------

Honeywell Ezsense

- Battery operated - 2 x AA batteries supplied
- Detects methane (natural gas), propane, butane, LPG and LNG
- CE marked
- Responds immediately to the relevant levels of gas after the 20 second warm up period
- Compact and lightweight
- Catalytic bead sensor requires no calibration
- Identifies the source of leaks in pipes, valves, gas tanks, cylinders and hot water heaters
- Audible alarm and LED indication when gas is detected

Dimensions	188 x Ø 30mm
Weight	110 g
Operating temperature	-10 to +50°C
Operating Humidity	Max 95%RH
Battery type	2 x 1.5 V AA batteries
Power Consumption	DC 600 mW
Detectable Gas	Natural Gas, Butane, Propane, LPG and LNG
Display type	Green LED: Power On - gas less than 500ppm* Yellow LED: Low Alarm - over 500ppm* Red LED: High Alarm - over 2,000ppm*
Methane (CH4)	
Measuring range	0 to 10,000 ppm

Code	4402

CO DETECTORS

Anton IAQ8494 Carbon Dioxide Meter

- Monitor environmental build up of Carbon Dioxide (CO2) with this easy to use handheld instrument.
- Compliant with BS8494
- Review both ambient temperature as well as direct Carbon Dioxide (CO2)
- Large, clear, backlit display
- Auto Power off

Includes:

- IAQ8494 Ambient CO2 detector
- Rugged blow moulded carry case
- Mains adaptor

Code	IAQ8494
-------------	---------

Storage Temperature	-20 to 60°C
Measuring Range	0 - 9999ppm (max alarm threshold 9900ppm)
Accuracy	± 75ppm ±5%
Resolution	2ppm
Battery Type	4 x AA batteries, DC Adaptor (not supplied)
Battery Life	10 hrs
Warranty	1 Year

Crowcon Clip Personal Carbon Monoxide Detector

- Intrinsically safe instrument suitable for use in potentially explosive environments
- Clips onto the users' person for quick alerts
- Audible, visual and audio feedback is threshold limits are exceeded
- Ingress protection of IP66 and IP67
- Self test functionality

Code	CLIPCO
-------------	--------

Storage Temperature	-22 to +122°C
Measuring Range	0 - 300ppm
Resolution	1ppm
Battery Life	24 months of operation/ 4 minutes of alarm per day
Warranty	2 Years

Duomo Carbon Monoxide Detector

- Dual digital displays of current and maximum carbon monoxide levels
- Adjustable CO warning level with "geiger counter" style audible indicator
- Auto power off function
- Backlight for working in dark areas
- Supplied with wrist strap, batteries and soft carry case

Code	DUOM02
-------------	--------

Measuring Range	0 to +999 ppm
Accuracy	± 20% at 0 to 100ppm ± 15% at 100 to 500ppm
Resolution	1 ppm
Operating Temperature	-5 to +45 °C
Battery Type	3 AAA batteries (supplied)
Battery Life	250 hours when backlight is off, 35 hours when on
Warranty	1 Year

Testo 317-3 CO Monitor

- Ready to go: no zero phase
- Alarm with adjustable thresholds
- Carry case with belt clip and handstrap
- 3-year CO sensor warranty

Includes:

- Carrying case with belt clip
- Headphones
- Wrist strap
- Sampler
- Calibration protocol

Code	T0632 3173
-------------	------------

Storage Temperature	-20 to +45°C
Measuring Range	0 to +1999 ppm
Accuracy	±3 ppm (0 to +29 ppm) ±10 % (+30 to +1999 ppm)
Resolution	1ppm
Battery Type	2 x AAA batteries
Battery Life	150 hrs (with beeper switched off)
Warranty	2 years on the instrument 3 years on the CO sensor

CHOOSING A GAS BLOW TORCH

We currently stock a wide variety of blow torches from various brands, including Sievert, Bullfinch, Rothenberger, Foker and Go-Gas.

Cartridge or Cylinder?

The first thing to decide is if you are looking for a small handheld cartridge blow torch or the larger propane cylinder torches that connect to a large cylinder with a hose and regulator. We have cartridge torches available from Rothenberger, Go-Gas and the Sievert Powerjet range. The main advantage of these torches is the low upfront cost and the practicality of having a small torch that can be carried with ease. However, there are fewer options regarding power and flame shape than with the larger cylinder torches.

Blow torches that run from a red propane cylinder need a hose and regulator. We tend to find that the propane cylinders cost less to run in the long run than the cartridges. We have blow torches like this from Sievert, Bullfinch and Foker. They have a variety of burners available, which means you can choose the flame's power and the shape of the flame in many cases. For example, the Sievert Cyclone burners create a wide flame that can wrap around a pipe for brazing or soldering; On the other hand, a pin-point burner would be suitable for cutting or melting small areas of metal.

Home Use

We find that some of our Sievert kits are very popular for use at home. We have a General Purpose Kit and a Jewellers Gas Blow Torch Kit. The general purpose kit comes with a 2941 Burner rated at 7.7kw and is 28mm wide. The jewellers kit comes with 8842 Lightline Burner, rated at 0.25kw and 9mm wide - the flame is extremely fine on this one and is for tiny detail work.

They feature interchangeable parts so that you can change the burners to suit your needs. Please note that you may also have to change the neck when deciding on extra burners.

Roofing Blow Torches

These heavy-duty torches feature a long neck and powerful windproof burners. They are commonly used for roofing, road works, melting snow and weed killing. Some of them also feature double or triple heads for greater coverage.

PROPERTIES OF GASES

	Butane	Propane
Chemical symbol	C ₄ H ₁₀	C ₃ H ₈
Relative density of gas to air <i>(at 15°C, at atmospheric pressure)</i>	Heavier than air 2.0	Heavier than air 1.5
Boiling point at atmospheric pressure	-2°C	-42°C
Pressure of gas at 0°C	Nil	4-5bar
20°C	1-3bar	7-9bar
50°C	3-7bar	15-19bar
Ratio: Gas volume to liquid volume <i>(at 15°C, at atmospheric pressure)</i>	238	279
Volume of gas to weight of liquid <i>(at 15°C, at atmospheric pressure)</i>	420dm ³ /kg 6.6ft ³ /lb	540dm ³ /kg 8.6ft ³ /lb
Calorific value <i>(at 15°C, at atmospheric pressure)</i>	49.5 MJ/kg 21,200 Btu/lb 121.5 MJ/m ³ 3,200 Btu/ft ³ 13.7 kWh/kg	50.4 MJ/kg 21,500 Btu/lb 93 MJ/m ³ 2,500 Btu/ft ³ 14.0 kWh/kg
Air required for combustion: Ratio: Volume of air to volume of gas	30	24
Minimum ignition temperature air	410°C	460°C
Relative flame speed (hydrogen = 100)	16	16
Flame speed	0.36-0.40m/s	0.36-0.40m/s

RECOMMENDED MAXIMUM OFFTAKES FROM CYLINDERS

When gas is drawn off a cylinder it causes the liquid to cool and the pressure to drop. If gas is taken too quickly the pressure drops below an acceptable level and in some cases water vapour in the air will freeze on the outside of the cylinder. If the cylinder will not give enough gas for the appliances either a larger cylinder must be used or cylinders must be coupled together using pigtailed and manifolds. Therefore maximum permitted offtakes are laid down for given sizes as follows:

Cylinder size	Maximum offtake				
	kW	kg/h	lb/h	ft ³ /h	dm ³ /h
Butane					
4.5kg	5.73	0.418	0.92	6	175
14.5kg	9.50	0696	1.53	10	280
Propane					
4kg	7.3	0.528	1.16	10	280
13kg	14.6	1.054	2.32	20	570
19kg	18.3	1.319	2.90	25	710
47kg	32.9	2.373	5.22	45	1270

(These offtakes can be exceeded for intermittent use of appliances)

DATA

All data in this catalogue is approximate. Whilst every effort has been made to ensure the accuracy of the information in this catalogue we accept no responsibility for errors. In line with our policy of continued improvement of our products we reserve the right to alter the specification of any item without notice.

TERMS & CONDITIONS

APPLICATION OF GOODS Contracts and orders are accepted upon and subject to the conditions below. Unless expressly accepted in writing any qualifications of these conditions in any written or printed document of the customer shall be deemed to be inapplicable.

PAYMENT TERMS for account customers are end of month following the date of our invoice to the customer. If you do not have an account, payment must be made prior to collection/dispatch. We accept payments by BACS, Credit/Debit Card, Paypal or cash.

INTEREST PRICES The Company reserves the right to charge interest on overdue accounts.

PRICES are correct at the time of publication but are subject to alteration without prior notice.

PRODUCTS The company reserves the right to modify products without prior notice.

SAMPLES Notwithstanding that a sample of the goods may have been exhibited or shown to the buyer and inspected by the buyer, it is hereby declared that such samples are solely to enable the buyer to judge the quality or the type of goods and do not constitute a sale by sample under the contract. The buyer shall take the goods at his own risk as to their corresponding with the sample or as to their quality, condition or sufficiency for any purpose.

SCHEDULED ORDERS A scheduled order calling for delivery spread over a defined period shall constitute authority to manufacture and shall define the buyer's ultimate delivery. The buyer is at all times liable for current total scheduled stocks and works in progress.

TITLE OF GOODS is only transferred when payment has been received for all amounts due and owing. Should amounts due be unpaid, Hamilton Gas Products Ltd shall have the right to enter the customer's premises during ordinary business hours and take possession and remove such of its goods as are in the customer's possession. If the goods have been sold by the customer before all payments have been made to Hamilton Gas Products Ltd, the customer must hold the proceeds arising from such a sale as trustee for Hamilton Gas Products Ltd until all payments due have been made. In the event of a customer being placed in Receivership or Liquidation it is not the intention of the parties hereto, that a Receiver or Liquidator be empowered to sell Hamilton Gas Products Ltd goods save where all payments due and owing to Hamilton Gas Products Ltd by the customer have been paid in full.

DELIVERY Standard delivery for Northern Ireland & the Republic of Ireland is 3-4 working days however, it is usually quicker but can not be guaranteed specifically during busy times.

Standard delivery for England, Scotland & Wales 3-4 working days. Delivery times to some areas of Scotland, the Scottish Highlands, Islands and outside the UK mainland, and remote parts of Ireland can vary and items can take up to 4-5 working days.

24 & 48 Hour delivery options are available for an additional cost.

RETURNED GOODS You are entitled to return the goods within thirty (30) days (30-day money-back guarantee) for a full refund, including the cost of standard delivery. Please note, if you have upgraded to a premium shipping option (1 or 2 working days), this will not be refunded. Account customers have 3 months to return unwanted products. All products must be unused and in their original packaging. Such goods will not form the basis of any claim for work done or for any loss, damage or expense whatsoever arising directly or indirectly from such a claim. Goods must be accepted by Hamilton Gas Products Ltd as defective.

Hamilton Gas Products Ltd reserves the option to repair goods, or to replace them with goods similar to those ordered. Where goods have a manufacturing fault the item must be labelled detailing the nature of the fault. This information is required by the manufacturers in order to credit Hamilton Gas Products Ltd. In some instances there may be a time delay in raising the credit, as the product may need to be checked by the manufacturer's technical department, this is the case with all regulators.

FAULTY GOODS We will collect or provide a courier label for the collection of faulty goods. Such goods will not form the basis of any claim for work done or for any loss, damage or expense whatsoever arising directly or indirectly from such a claim.

Goods must be accepted by Hamilton Gas Products Ltd as defective. Hamilton Gas Products Ltd reserves the option to repair goods, or to replace them with goods similar to those ordered. Where goods have a manufacturing fault the item must be labelled detailing the nature of the fault. This information is required by the manufacturers in order to credit Hamilton Gas Products Ltd. In some instances there may be a time delay in raising the credit, as the product may need to be checked by the manufacturer's technical department, this is the case with all regulators.

Goods found not be faulty will be liable for the original collection & return cost. The customer will also be liable for any inspection or testing costs if the products are deemed not be faulty.

WARRANTY All goods supplied by Hamilton Gas Products Ltd have a manufacturer's warranty of 1 year from date of manufacture (please see full list of Warranty timescales), to be free from defects in materials and workmanship under normal use and service with the following exceptions:

Please note all goods supplied are stamped with month and year of manufacture.

CLAIMS Damages and shortages must be reported to our Customer Service Team within 24 hours of delivery. Non receipt of the whole or part of the consignment must be notified to Hamilton Gas Products Ltd within 7 days from date of dispatch. Claims outside these periods cannot be accepted. No responsibility can be accepted for damaged material or burst parcels on delivery unless Hamilton Gas Products Ltd are immediately notified by phone. "Unchecked", "Damaged" or "Shortage" will not be accepted by either Hamilton Gas Products Ltd or the chosen carrier(s).
